Recessed Stainless Steel edge

Recessed Double Seal Locking with Stainless Steel finish

Application: Suitable for private and public areas such as office building reception halls, hotel corridors and supermarket floors where an enhanced aesthetic floor finish is of primary importance. The 7100BE/SSE Series accepts most floor finish infills such as screed, tile, carpet tile and terazzo (for carpet finishes we recommend the aluminium Alulite Series - please ask the sales office for details).

Construction: As 7100 Series with specially extruded brass or stainless steel angles fitted to top edge of cover and frame to ensure enhanced finish to visible edges. Edge angles hand fitted and finished, cover edges neatly mitred. Lifting and locking points similarly finished in edging material. Locking covers have matching brass or stainless steel screws. Multiple units come complete with removable support beams and support pockets. All units are airtight. Brass edge and stainless steel edge units are supplied double seal and locking as standard.

Finish: Hot dipped galvanised to BS EN ISO 1461 as standard.

Manufacture: ISO9001 Quality system. F.A.C.T.A. (Fabricated Access Cover Trade Association) member.

Load Rating: F.A.C.T.A. Class AAA - 10 Tonne G.L.V.W. (Gross Laden Vehicle Weight). Full loading achieved infilled with Grade C25 concrete.

Optional Extras:

Brass Edging = suffix |BE

Stainless Steel Edging = MHC suffix |SSE

Allen key head security screws = suffix |AK

Ministry of Defence approved security screws = MHC suffix |MOD

Ordering: Please state required MHC Order Code and any optional extras i.e. MHC-7124/BE = 600x450mm/Brass Edge.

Product Code	Clear opening (mm)	Over Frame (mm)	Frame Depth (mm)	Internal Tray Depth (mm)
MHC-7122/DSL/SSE	300 x 300	380 x 380	60	45
MHC-7123/DSL/SSE	450 X 450	530 X 530	60	45
MHC-7124/DSL/SSE	600 X 450	680 X 530	60	45
